

Year 1: Toys Through Time

Autumn 1 Knowledge Mat

Key Knowledge

Everything that happened before now is the past.

Everything that happens after now is the future.

Living memory is a period of time remembered by people who are alive today.

Living memory is within the last 100 years.

A period of 100 years is called a century.

A group of 10 years is called a decade.

Chronological means in time order.

Older toys are often made from wood, metal or fabric.

New toys often have batteries or electronic features.

Enquiry skills

We can examine and sort toys by **how** they were played with, **who** played with them or **what** materials they were made from.

plastic toys

wooden toys

building toys

board games

musical toys

fabric toys
