## KNOWLEDGE...

### The Role of Women

- Before the war, most women stayed at home and didn't go out to work. Those who did work were paid less than men and were generally restricted 'women's jobs', such as nursing or working as a shop assistant. However, when men were called up for **active service**, women were needed to do jobs such as making weapons, driving buses and trains or working in engineering or shipbuilding. Some joined the armed forces themselves.
- After the war, many women lost their jobs. However, their experiences led them to campaign for **equal working rights** and pay so that they could carry on leading more independent lives.

### The Holocaust

- The **Holocaust** is the term for the killing of over six million Jewish people before and during World War II, organised by **Adolf Hitler** and the **Nazi party**. Even before the war, they wanted to blame the Jews for the problems in Germany and used **propaganda** to promote widespread public hatred of them. Jewish people were openly bullied, persecuted, abused and discriminated against.
- Many Jews were sent to **concentration camps** where they were forced to work like slaves. Many died through infection, starvation or exhaustion. Others were sent to death camps where they were killed in gas chambers. This form of mass killing is called **genocide**.
