Key Knowledge

- Kenya is a country in Africa.
- Nairobi is the capital city of Kenya.
- The world is divided into 7 continents: North America, South America, Antarctica, Europe, Asia, Africa and Australia.
- Kenya is on the equator so it is a hot country.
- In Kenya there are elephants, rhinos and giraffes living in the wild.
- Nairobi has 2 seasons: wet and dry.
- Habitats are a place where organisms live. In Africa there are rainforests, savannahs, deserts and mountains.
