

Topic Vocabulary	KEY KNOWLEDGE																									
<p>commerce - buying and selling goods and services for a profit</p>	<p>The Victorian Era The period of time between 1837 to 1901 when Queen Victoria reigned over Britain. During her 63 year reign, there was a huge contrast between how the rich and poor Victorians lived. Queen Victoria led the expansion of the British empire and saw major changes to all aspects of Britain due to exciting discoveries and inventions.</p> <p>Key Inventions Victorian Postage System - characterised by the introduction of postage stamps, standardised postal rates, and the widespread expansion of postal services, which played a crucial role in the development of the Victorian era's communication and commerce from 1837-1901. The Penny Black was also the first adhesive stamp! The Football League - The creation of the British Football League, often known as the Football League, occurred in 1888 and marked the establishment of the world's first organised football league system. Sewers - the innovative system of underground sewage and drainage networks developed during the Victorian era (approximately 1837-1901) in the United Kingdom. They were designed to effectively carry away wastewater and sewage from urban areas The London Underground - also known as the Tube, refers to the world's first underground urban railway system established in London during the Victorian era, specifically in 1863. This subterranean transport network revolutionised urban transit by providing a fast and efficient means of transportation within the city.</p> <p>Victorian Railways Victorian railways revolutionised people's lives by providing faster, more affordable, and widespread transportation. They enabled easier access to distant places for work, leisure, and commerce, catalysing urbanisation, tourism, and economic growth. The railways also facilitated the movement of goods and created new opportunities for employment.</p>		<p>The 1833 Factory Act The 1833 Factory Act was a pivotal piece of legislation in the United Kingdom during the early Industrial Revolution, aimed at improving labour conditions. It established regulations that set minimum working ages for children, limited their working hours, required education, and introduced safety measures in factories and cotton mills. This act was a significant step toward addressing the harsh working conditions and child labour practices of the time.</p> 																							
<p>industry - a group of companies that all produce the same thing</p>																										
<p>Industrial Revolution - a time of major change in the way products were made</p>																										
<p>invention - a new thing that someone has made</p>
