

Year 2 - Summer 1 - Circle of Life

Key Vocabulary	Key Knowledge
plant 	1) Plants need water, sunlight and carbon dioxide to stay healthy.
seed 	2) Seeds are planted in the soil usually but sometimes are sprinkled on the top. It depends on the type of plant.
germination 	3) When a plant bursts out of its shell it is called germination.
shoot 	4) Some plants lean towards the sunlight.
seed dispersal 	5) Seed dispersal is when the seeds move away from the parent plant. They can drop to the ground in the plant's fruit or be moved by the wind or animals.

Prior Learning

Seeds need water to grow and leaves catch sunlight. Flowers attract insects and birds. Plants grow in places like gardens and parks.
